WHAT IS FLEET MANAGER

The All-in-One Fleet Management Platform

Fleet Manager is a secure, intuitive platform that centralizes corporate fleet management into a single environment.

It tracks vehicles, bookings, deadlines, costs, maintenance, and documentation, giving you complete control over your daily operations.

Through dedicated dashboards and digitized processes, the platform optimizes vehicle utilization, streamlines daily workflows, and drives overall fleet efficiency.

WHY FLEET MANAGER

FUEL COST REDUCTION

BOOSTING EMPLOYEE PRODUCTIVITY

REDUCING FLEET FINES & PENALTIES

ENHANCED COORDINATION & TIME SAVING

CENTRALIZED DATA STORAGE

THE IMPACT ON YOUR BUSINESS

KPI	RESULT
Fuel Cost Control	- 30%
Emissions	- 30%

GERMANY

900 cars

+ 42%

vehicle optimization

FM APPLICATION

Particular focus on vehicle assignments to executives, employees, and journalists, and on credit recovery related to fines.

2022

DEPLOYMENT YEAR

ITALY

100 cars

+ 45%

vehicle optimization

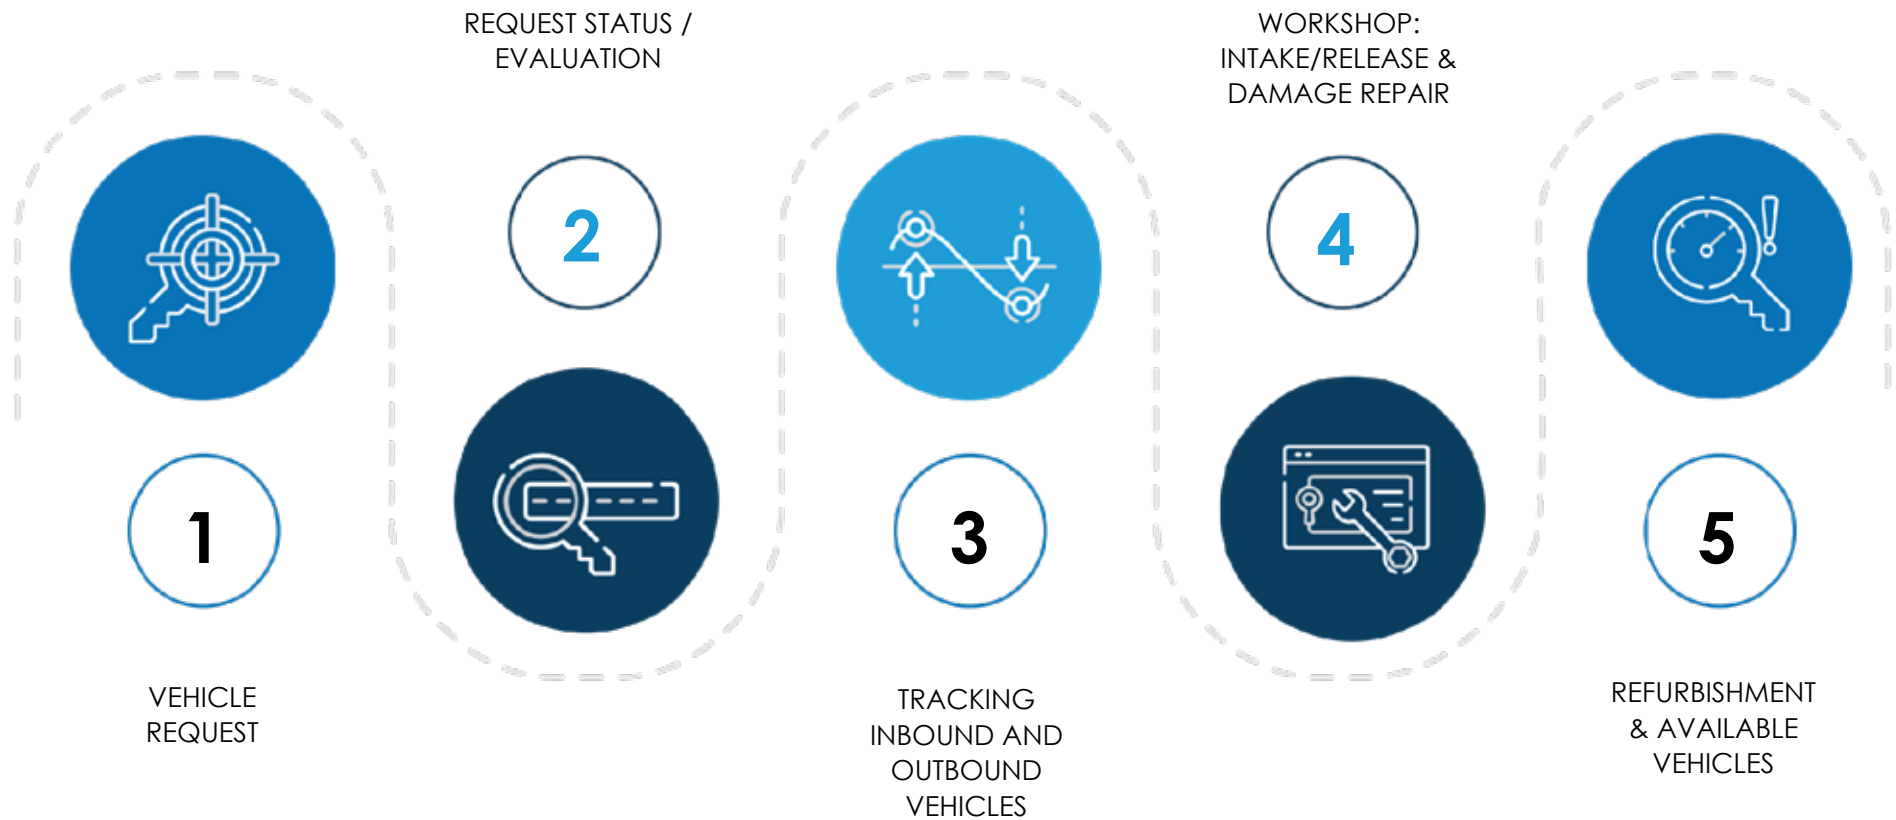

FM APPLICATION

Organization and management of marketing events across Europe, and vehicle utilization for test drives across 5 EMEA regions.

HOW IT WORKS

FLEET MANAGER

APPROVAL **WORKFLOW**

FEATURES 1

VEHICLE DATA

Customizable fields related to usage status, vehicle condition, registration, options list, etc.

REQUEST

Initiation of the approval workflow with definition of lead times for booking and logistics.
Approval steps via push notifications.

DOCUMENTS

License plate, insurance, road tax, vehicle servicing, notes, and more, in constant communication with the scheduling calendar.

SCHEDULING

All information on requests and departures for each vehicle in an intuitive graphical timeline with date range filters.

FEATURES 2

MODEL AVAILABILITY

Intuitive and instant timeline of vehicle model availability over time. Virtual garage filterable by date range.

DEADLINES

List of deadlines in order of urgency, filterable by time and document type. Option to upload useful attachments (receipts, insurance documents, etc.).

WORKSHOP

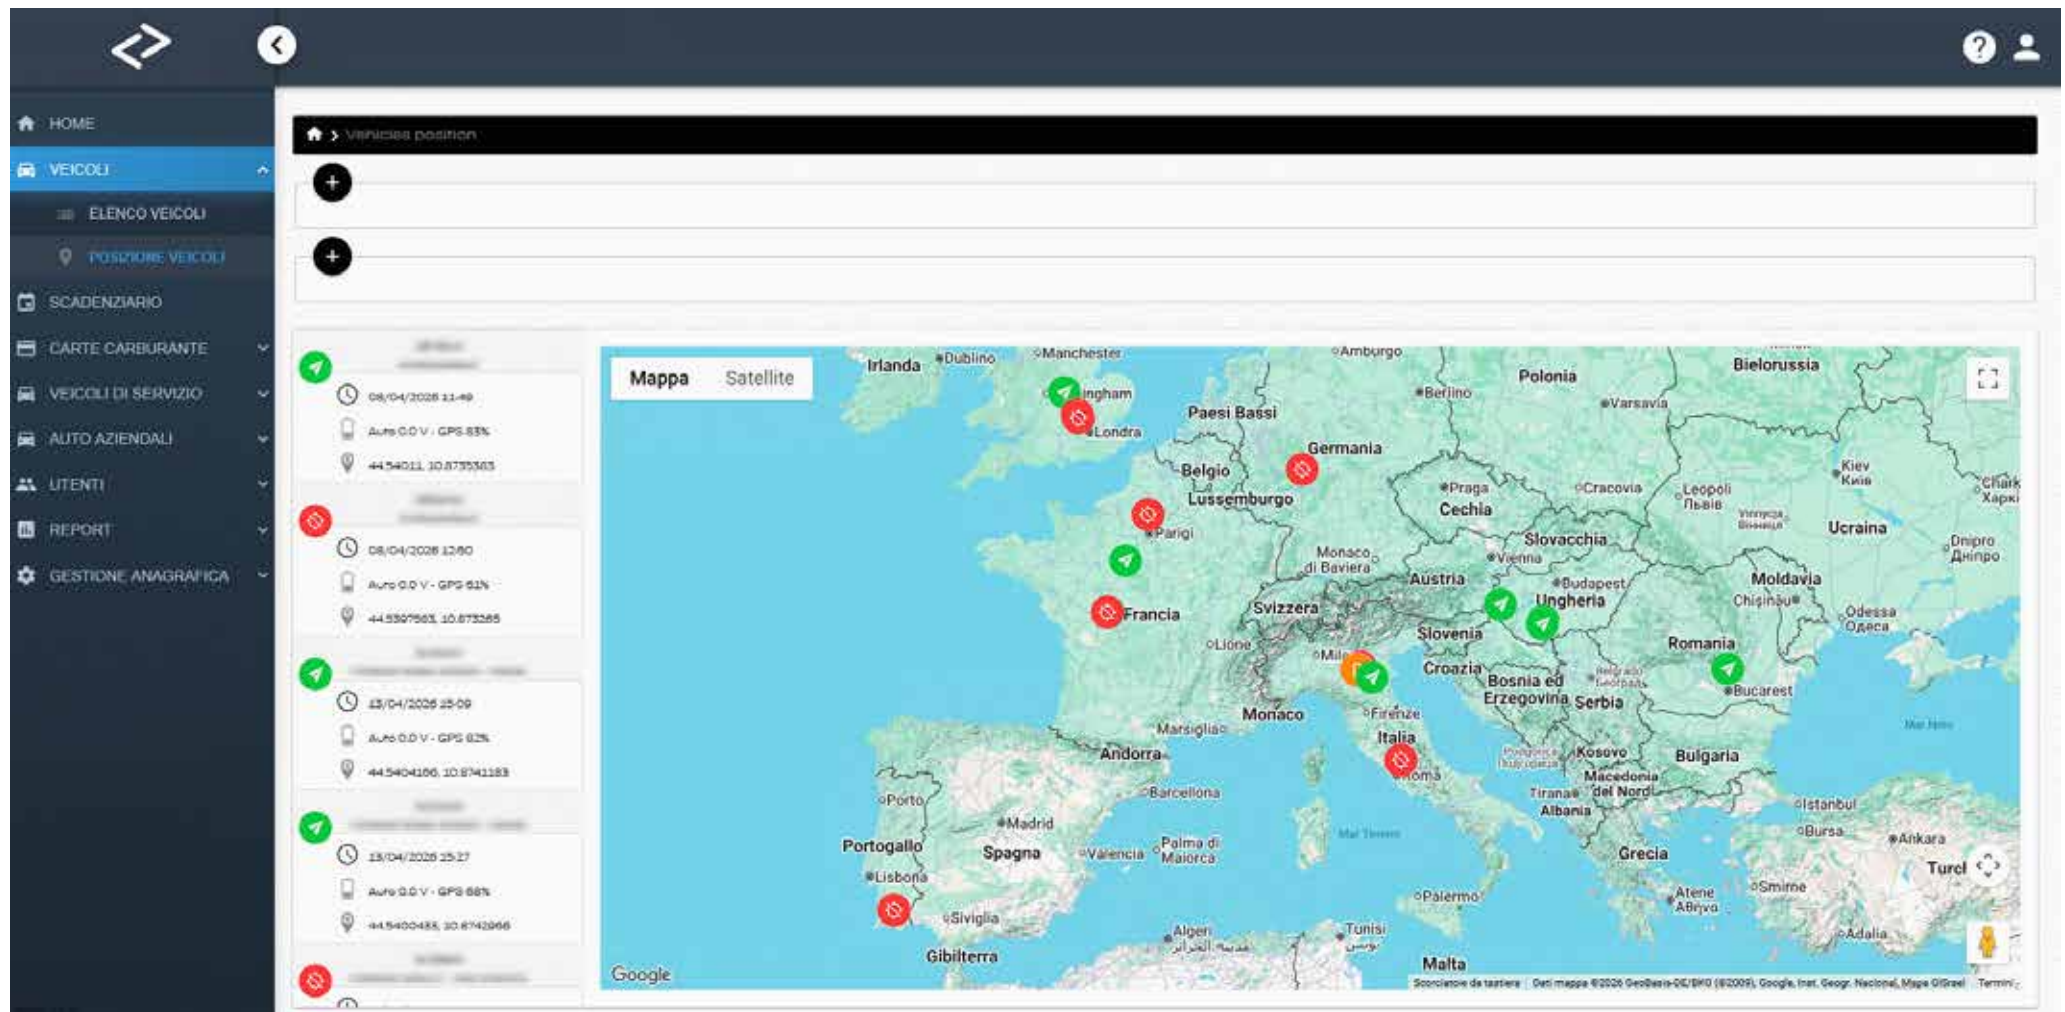

Fault reporting and sending vehicles for repair.
Maintenance of vehicle check-in/check-out history in the workshop.

REPORTISTICA

Exporting feedback reports on actual fleet performance. Instant graphical visualization from the dashboard.

REAL TIME GPS TRACKING

Geolocation and operational control
Real-time monitoring of vehicles, events, and fleet activities.

LEASING & RENTAL MANAGEMENT

CONTRACTS

Management of rental and leasing contracts

HANDOVER / RETURN

Vehicle handover and return dates

FUEL & MILEAGE

Integration of fuel cards and distance traveled

INSURANCE & COSTS

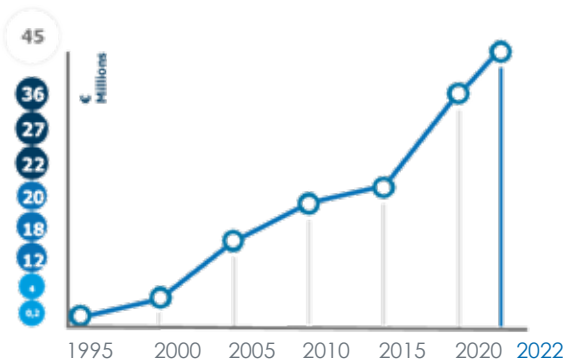

Insurance, vehicle tax, and cost management
